HER BRIDAL NIGHT IN JAIL.

LILLIE'S IRATE STEPFATHER SPOILS HER AND MICHAEL'S NUPTIALS.

They Married Despite Mr. Arenden Object tions and He Charged Her with Stealing Seven Dollars-Policeman Madden Brought Discord Where Hampiness Reigned and Put Lillie in a Cold Cell.

Pretty Miss Lillie Irving and handsem Michael Cooney, a car-driver, decided that marriage would never be a failure, if they were the contracting parties.

Lillie has a stepfather who did not take tne same view of the case. His name is John C. Arendt. He is jauitor of a big office building at 108 Broad street. He was perfectly willing that his stepdaughter should regard Michael with a fond, sisterly affection, but nothing more. Lillie is twentytwo, old enough to choose for herself, and

Lillie started out at 8 o'clock last evening, and, accompanied by her loved one, went to a German Protestant church at Sixteenth a German Protestant church at Sixteenth street and First avenue, and there they were married. Only a few invited guests, known to be in favor of the marriage, were present. When Step-papa Arendt heard the news he became furious, and about the same time missed \$7 from a bureau drawer in his parlor. He at once suspected Lillie of being the thief, for no other reason, apparently, than that she married against his wishes. He hurried to the Old sip station and revealed his suspicions to Police Capt. McLaughlin.

"Do you want to have her arrested?" asked the latter.

"Sure," responded the irate parent.
Policeman Thomas J. Madden was sent out to find Lillie. He found that Mr. Cooney had rented apartments in a tenement-house at 448 West Thirty-ninth street. Thither he went, and found Mr. and Mrs. Cooney at home. It was 10 o'clock, but a dim light burned in their rooms.

Before he rapped at the door he heard mysterious, sweet-sounding murmurings, interspersed with sibilant reverberations that might have been caused in the act of kissing. His knock produced instant silence.

After a long wait a voice in dulcet tones asked:

"Who's there?" street and First avenue, and there they were

ssked: Who's there?"

"Open in the name of the law," answered

Madden.

"Oh, oh; dear, dear; what can the matter be?" he heard before pretty Mrs. Cooney opened the door.

Then he told her what she was wanted for. She became very indignant and declared it was "a piece of mere spite on papa's part."

She went with the officer, and her husband went slore, too.

She went with the officer, and her husband went slong, too.

The station-house was reached about 11 o'clock, and Lillie was conducted to a cell, There she cried herself to sleep. Michael returned home with only half a heart.

He was in the Tombs Court bright and early this morning though. So was Mr. Arendt, Lillie and the policeman. Mr. Arendt was not so sure this morning that his daughter stole his gold, and asked permission of Justice Patterson to withdraw the complaint. His request was granted and the young wife was discharged. She hurried sway with Michael to continue their interrupted loyemaking.

GOV. HILL TO THE WORKERS.

Outline of His Great Effort in Cooper Union

Gov. Hill will arrive in town this after. oon and will address the great labor meetng at the Cooper Union to-night.

The friends of the Governor think that his speech to-night will be the greatest speech he has as yet delivered. He will talk for nearly two hours, and the entire labor question will be gone over. He will explain rather than defend his acts as Governor. He will do so on account of the campaign

lies that have been circulated regarding certain of his vetoes.

There is no doubt of Gov. Hill receiving a rousing reception at the meeting, it is expected that the large hall of Cooper Institute will be filled to overflowing. No tickets of admission are required, except to the platform.

will be filled to overflowing. No tickets of admission are required, except to the platform.

An attempt was made by a fussy delegate in the Central Labor Union yesterday to create some feeling against the movement of organized labor for Gov. Hill, but it failed. It was said the names of unions had been used to further the object of the mass-meeting to-night, but it was proven that the repert was false.

The labor leaders are seting independently as itdividuals, and the rank and tile of the 300 different organizations connected with the ceatral body are doing likewise, and for the reason that they like the Governor and know him to be the best friend they ever had in the Gubernatorial chair in this State.

As an endence of the genuineness of the movementin favor of Gov. Hill, the following names of the leading men of the Central Labor Union and in organized labor generally in this city and State are given.

Each of these is a strong supporter of the Governor: Ed Finkelstone, Matthew Barr, James P. Archeald, Philip Wentz, James McKim, John F. Cunningham, Walter Keech, John N. Bogert, Charles Rogers, Frank Baxter, George F. Murray, Joseph Nejedly, James E. Pell, Joseph Hallis, Bernard Campbell, Daniel Shith, Samuel Riker, John F. Hill. Edward Barnes, John H. Clark, Edward J. Doutney, Henry G. Seaman, John E. Farren, C. C. Coon, James H. Kearney, J. O'Neill, Dennis Long, Horace L. Wells, E. H. Purdy, J. J. Thompson, J. A. Staunton, James McKenna, Cornelius Murray, Ed B. Murphy, Benjamin Woodruff, John W. Baist, Robert Førell, Louis A. Schopps, Peter A. Flynn, Jømes Mulgrew, William F. Keating, Thomas F. Scully, Frank M. Horn, Nathan D. Boutelle, Andrew Corrigan, Edward O'Neill and Phillip J. Scannell.

The Brooklyn wing of the United Labor party has repudiated the attempt to foiet Warner Miller on the working people, and comes out openly in favor of Gov. Hill.

SHE IS NOT JEALOUS.

If Anybody Is, Mme. Hading Thinks, It State Be Coquelin. Mme. Jane Hading's first experience of a

lovely Autumnal day in America was blurred | in this table : by the exhalation from the morning papers which ventilated the lack of entente cordiale between her fair self and Coquelin.

When an Evening World reporter called on her this morning to see what it all meant, he found the madame already seated at the writing-table in her cosy reception-room, though it was only 10. 30.

She was dressed in a terra-cotta gown, and her beautiful bronze hair wreathed her mobile face in a glory like the sureola of a mediæval saint. The pictures of Mme. Hading do not do her justice, and the public will be pleasantly surprised to find her more beautiful than even lithographers have led them to expect.

She greeted the reporter with her cheery smile, and after inquiring after her health and learning that she was not yet feeling fully rested, the reported asked:

"What is the true state of the relations be tween M. Coquelin and youself, madame?" She gave that eloquent shrug of the shoulders which speaks volumes from a Parisienne and then her face broke into a genial smile.

"M. Coquelin was to have been engaged done for this American tour, Afterwards M. Grau thought the success of the venture would be better assured by having me also. Before we reached Rio Janeiro

me also. Before we reached Rio Janètro M. Coquelin had shown something of this feeling of jealousy. During our South American trip I learned that he sent accounts to the Paris papers of the performances. These accounts had no mention of me.

"We appeared together on the first night and certainly met with success. Afterwards this was changed and M. Coquelin made his appearance before me. In the plays in which we appear in conjunction, my part is usually the more prominent onel because I am not a comedianne, and in plays where there is a rôle suited to me, naturally it is of more importance than the one suited it is of more importance than the one suited

to a comedian."

"One of the papers says there is some feeling over the difference in size of the letters in which Coquelin's name was printed and those in which your's appeared in the bills."

"But they are of the same size, are they not?" said madame, arching her eyebrows.

"His name is first. He is older in the departity profession and was read as this

dramatic profession, and in years; and so this is right enough."
"And Mr. Glaser, Coquelin's agent, what

of him?"

"I am not particularly fond of M. Glaser, and I do not think he has done anything to do away with any feeling that may exist. But it is a trifle," said Mme. Hading, the dimples denting her cheeks again as she smiled. "I like M. Coquelin well enough. It is he who does not like me."

"And is it true that he seemed to have any grader success in his roles than madame?"

"And is it true that he seemed to have any greater success in his roles than madame?" inquired the reporter.

"Weli, it would hardly be delicate for me to speak on that subject," said the actress. "The public will see, and can judge for itself of the respective merits of M. Coquelin and myself," she continued, with dignity.

'I hope this thing won't disquiet you at all," said the reporter.

"Not in the least," said Mme. Hading, with snother speaking shrug, and the reporter wished her good morning.

M. Coquelin was wrapped in a coverlet and a cold, and could see no one before 1 o'clock. Coquelin jils was down at the pier to meet friends on a steamer, so nothing could be learned from the masculine side of the existing feui.

Some People Believe Palladoni Still

Bridgeport Will Be Excited Until the Grave Is Opened.

That Exciting Scene in the Jail Yard at the Execution.

ISPECIAL TO THE EVENING WORLD. Burnageour, Oct. 8.-A rumor has been

started here that Philip Palladoni, the fratricide, hanged in the Fairfield County jail yard last Friday, is still alive. Owing to the absence from town of Sheriff

Clarkson and the priest who attended Palladoni, no statement from him can be secured. The physicians say that the circumstance attending the hanging made it as hopeful a case for resuscitation as has ever been

known. The body was cut down in thirteen min

A guard has been kept over the grave in the old disused cemetery where he is said to be buried. Examination this morning shows that the ground has not been tampered with. At first it was stated that Palladoni had been buried alive. The vigilant guarding of the grave was to intercept any physicians from exhuming the body and experimenting upon it with a galvanic battery.

The local physicians deny that they intended to exhume the body, but if there was a medical college in Bridgeport the body would have been secured.

After Palladoni was cut down the physicians were auxious to experiment with the body. A violent scene followed. The priest ordered none to touch the body and appealed to the Sheriff. The latter gave the jail doctor permission to examine the neck. Other physicians attempted to feel of the pulse, but were unceremoniously thrust aside by Mr. Kenny, of Danbury. There was no mark upon the body save a skin scratch upon the neck.

This chain of circumstances before and after the execution have led many to believe that Palladoni still lives.

No blame is attached to the officials; neither to the priests, as they as well as Palladoni belong to a secret order organized years ago in m Italy.

For days and weeks the priest had been in faithful attendance upon the prisoner. He defrayed his own expenses, which were heavy. He also bought Palladoni's coffin and exhibited the receipted bil.

An unsuccessful attempt was made to secure a reprieve, on the plen of insanity. The prisoner was sullen and morose until a few hours before the hanging, when he suddenly brightened and seemed anxious for the hour to arrive, He was dressed in the jail chapel by two priests for execution. Afterwards he visited all the prisoners and bade them farwell. He mounted the scaffold with a firm tread. The priest began reciting a prayer. When Palladoni totered sideways the signal was given to spring the drop.

It was stated afterwards that Palladoni had fainted. It is now thought that the fall side.
